N/A	N/A	• There have been no UKMTO incident alerts issued in this period.

## Electronic Interference Reports Made to UKMTO

Date Range 05 - 12 November 2025

- Over the past week, UKMTO has received new GNSS Interference reports from four separate vessels, three in Red Sea and one in the Arabian Gulf.
- As per last week, there appears to be a lack of consistent compliance in the reporting.
- Overall, the concentrations levels within the pictured area, appear to have decreased; similar to the levels observed in January this year. The clustering in the areas of Suez Canal and in the vicinity of Yanbu, Jeddah and Port Sudan have decreased further, the Central Red Sea area is displaying lower levels than seen in previous weeks.
- In the Arabian Gulf, clustering remains in the vicinities of Jebel Ali, Fujairah, Bandar e-Pars and across the Strait of Hormuz, although given levels that are observed are low. In addition the concentration levels in the Djibouti Anchorage area remain low.

### AIS Speed Anomaly Methodology: **AIS Speed Anomaly Methodology:**

- Commercial-class vessels >1,000 GT, transiting at speeds >25 kts. These speeds are considered atypical for vessels of this class and may indicate spoofing, misreporting, or electronic interference.
- **Hexagonal grid overlay, allows clustering and density analysis:**  
Each hexagon is colour-coded based on the number of anomalous events observed within its area: **Yellow:** 25 to 26 events; **Green:** 5 to 25 events.
- **All Vessels are requested to report any experience of electronic interference to UKMTO, in support of keeping the broader community more accurately informed.**

## Maritime Industry

- **31 March 2025, London** – The Industry Associations of BIMCO, ICS, IMCA, INTERCARGO, INTERTANKO and OCIMF supported by over forty maritime stakeholders, released a consolidated and enhanced publication Best Management Practices (BMP) for Maritime Security (MS).
- Further information on this press release can be found by clicking [here](#).
- Best Management Practices (BMP) for Maritime Security (MS) click [here](#) to view.

## CMF - Joint Maritime Information Centre (JMIC) Products

- **CMF - JMIC Products.** The CMF - JMIC Weekly Dashboard and CMF - JMIC Information Notes (InfoNotes) products are promulgated on behalf of CMF - JMIC on UKMTO's website at ['JMIC Products'](#).
- **CMF - JMIC Weekly Dashboard.** The most recently issued JMIC Weekly Dashboard is available at [JMIC Weekly Dashboard](#).
- **CMF - JMIC Previous InfoNotes.** Previous InfoNotes, issued prior to this summary reporting period, are available at [JMIC InfoNotes](#).
- **JMIC - Bridge Emergency Reference Cards Middle East.** The most recently produced version of the 'JMIC Bridge Emergency Reference Cards - Middle East' is available [here](#).
