Ships Maritime Security Briefings - Jebel Ali, Dubai

- *There have been no Ships Maritime Security Briefings in this period.*

Electronic Interference Reports Made to UKMTO

Date Range 07 - 14 January 2026

- Compared to last week's report, levels of electronic interference show a slight increase, especially nearer coastline. However, these are not currently assessed as having a significant impact on ships navigation or safety.

- In the Central Red Sea region, the levels of interference remain from severe to critical.

- In terms of ports, moderate levels have been observed in the vicinities of Port Sudan, Bandar Abbas, Fujairah, Dubai and Sitra.

- As per the past few weeks, there continues to be a lack of compliance in direct reporting of such interference events from vessels.

For reference HexBin colours :

- Red (>100) = Critical
- Amber(100->50) = Severe
- Yellow (50->25) = Moderate
- Green (25->5) = Low
- <5 is discounted.

- *All Vessels are requested to report any experience of electronic interference to UKMTO, in support of keeping the broader community more accurately informed.*
